# REPORT

As part of the Outreach activity, the students of II Semester BSc Information Technology organized a Clean-Up Drive at Aarangali Kadavu, Annanad, on February 25, 2026. The class outreach coordinator, Ms. Hrithika K P, coordinated the program.

The program aimed to promote environmental awareness, social responsibility, and community engagement among students. The students actively participated in cleaning the surroundings by collecting plastic waste, removing litter, and ensuring the proper disposal of the collected waste. The collected waste was placed in garbage bags and was later handed over to the Haritha Karma Sena for proper disposal. In addition, the students cleared the plants and bushes surrounding the instruction and notice board established by the Panchayat, which had been covered with overgrown bushes and ferns. This helped restore the visibility of the notice board and improved the cleanliness of the area.

The Clean-Up Drive was a meaningful and successful outreach activity that contributed to creating a cleaner environment and encouraged students to actively participate in community service for a greener and healthier future.
