Date of event : 10 February 2026

Faculty In-charge : Mr. John Kizhakuden

Ms. Neethu Valsan

REPORT

A feedback survey was conducted among the parents who attended the Final Year UG PTWA meeting held on 10 February 2026. The purpose of the survey was to collect parents' opinions regarding the academic environment, support systems, and overall functioning of the institution during the three-year undergraduate programme.

A structured feedback form was distributed to the parents during the meeting. The form included questions related to important aspects of the institution such as the approachability and professionalism of teachers, the effectiveness of the management, the learning atmosphere in the campus, security arrangements for students, satisfaction with the fee structure, the examination system, training programmes offered to students, and the overall quality of education.

The feedback received from parents was largely positive. Most parents expressed appreciation for the care, dedication, and professionalism of the teaching faculty. They acknowledged the supportive attitude of teachers and their commitment to the academic and personal development of students.

Parents also expressed satisfaction with the management's approach and the administrative support provided by the institution. The learning environment of the campus was rated positively, and parents appreciated the discipline and academic atmosphere maintained in the college.

Another important aspect highlighted in the feedback was the security of students on the campus. Parents expressed confidence in the safety measures implemented by the institution. The fee structure was also considered reasonable and satisfactory by most respondents.

The feedback regarding the examination system indicated that parents were satisfied with the transparency and regularity of examinations and assessments. The training programmes and academic activities conducted by the institution were also considered useful for enhancing students' knowledge, skills, and career opportunities.

Overall, the feedback reflected a positive perception of the institution among parents. They expressed satisfaction with the quality of education, the dedication of the faculty, and the supportive academic environment provided to students.

The detailed analysis of the feedback responses is attached along with this report.
