Event in Charge: Ms. Mini Joshy

Remedial Teaching

Remedial instruction aims to improve some skills and abilities in students. Various techniques, such as a more practice or explanation, repeating the information, and devoting more time to working on the skills were used for guiding the students.

Soon after the first internal examination results of fifth and third semester students are declared, subject teachers identified the slow learners (weak students) and provided remedial measures to them. After the remedial classes, remedial test was also done.
