REPORT

Jubilees are occasions to be celebrated, to recall the marvellous ways in which the college has fulfilled its mission in imparting education, moral and spiritual values, and discipline to help build leaders who will bring about a culture of peace and love which our society and country needs today. They also provide an opportunity to reflect on the past achievements of the school as well as introspect on the preparations to meet the challenges that lie ahead.

Naipunnya Institute of Management and Information Technology celebrated its inaugural ceremony of the yearlong silver Jubilee celebrations, “Embracium- Touching Lives Forever” on 30 April 2022. The festivities include a plethora of exciting events spread over the year, making it one of the most festive and memorable periods in the history of the school

As a part of ‘Embracium’ Naipunnya being in its 25th year, Reframing Vision and Mission of the Institute was one of its concerns. Under the guidance of Rev. Fr, Dr. Paulachan K J and Management team, IQAC took the initiative to conduct a One – day workshop with all MTM members along with members of Academic council and Senior Faculties on 21.01.23. The Resource person of the day was Rev. Fr. Dr. Vincent Pereppadan S J. Director, Snehasena Children's Magazine in Malayalam.

The resource person conducted various sessions and activities to reframe vision and mission considering the feedbacks of the participants. Participants were also told to have telephonic conversation with former Directors and Management Members of the College to know about their vision and dream of the College. Rev. Fr. Dr. Vincent Pereppadan S J. conducted all the sessions considering that, Reframed Vision and Mission need to be relevant: and to be related to what the organization actually does, and speak to the actual products and services of the organization, and how they are delivered. They also need to be tangible: there should be concrete specifics in terms of what the organization is trying to do, and how to do it. Thirdly, they need to be meaningful: for a statement or set of principles to be relevant, people need to see themselves, their jobs and their roles within the context of the statement, and be able to apply it to their jobs or roles, no matter where in the hierarchy they are. Finally, they need to be credible: they can't just be lip service, platitudes or pie-in-the-sky fantasies. They have to provide pragmatic, real and attainable statements of guidance.

Considering all these factors after the Workshop Vision and Mission along with Core values were reframed.

Reframed Vision, Mission and Core Values are
