BODHANA - Peer Teaching/Learning

Bodhana -Peer teaching program, initiated with the purpose of supporting our students who require additional support in different subjects was started on 09-01-2023. The peer to peer network acts as the first line of support for students. Peer teaching offers some important benefits for learners and instructors alike. Being taught by a peer can break down barriers that may affect some students and can create a more engaging learning experience. One of the benefits of peer teaching is that it can have a positive effect on students' attitudes about what they're learning and the learning process in general. For peer teachers, the experience can deepen their understanding of the subject and impart confidence.

Understanding these values of peer teaching/learning, the Department of Commerce organized a Peer Teaching –Learning program for the students.

Procedure:

- Slow learners and advanced learners in Managerial economics and Business management were identified by the subject teachers on the basis of internal exam results and class participation.
- Advanced learner from various classes were the peer tutors.
- Peer tutors are given training by the subject teachers.
- One hour duration classes were provided for a period of one week.
- The examination in the university pattern was conducted.

Prepared by,

Ms. Mini Joshy

(Coordinator – Peer Teaching)
