Industrial Visit Report

Class: VIth Semester BSc CS

Date: 17.02.23

Company Visited: WEBANDCRAFTS, INFOPARK, KORATTY.

Industrial visit is considered as one of the tactical techniques of teaching. The essential cause at the back of this is students can recognize matters nearly through interaction, running techniques and employment practices. Moreover, it gives exposure from academic point of view.

Guided by Dr. Sarika S and Mr. Deepak K V,the team left the college premises at around 9:30 and left for the industrial visit held at koratty infopark. After reaching the destination team is welcomed by the HR executive of WEBANDCRAFTS, Ms.Ashwini and she gave the students a tour of the campus and the working area.Students were then introduced to the team of WEBANDCRAFTS front-end and back-end testing team and was given a tour of the office where we also got a chance to meet the team behind the working of the project. Students were also given an insight on the opportunities that will be given to the freshers after the degree completion and was told about the history and the background of the company by the HR. After that they were taken to the WEBANDCRAFTS official designing team who gave us an insight and also introduced us to the world of designing by showing us a few sample of their work and also gave them an outlook on how the designing apps and pages work accordingly. Students were also given the chance to meet Mr.Clint who is the head of the official designing team and he also gave us a briefing behind the successful working of WEBANDCRAFTS team. After getting a whole tour and meeting with the team and interacting with them, students were given an exclusive webinar session by Mr. Vinod kumar who gave them a session on the emerging trends in the field of Information Technology. He gave the students an insight on the topics of Artificial intelligence, Database managements, Cryptocurrency, Bitcoins, Python and Java and also introduced us to some of the apps that might be helpful to execute these programming languages. He also told about the scope and the opportunities that we will be getting after successfully graduating and the future behind this field.

The session was very interesting and ended up with an interactive session where queries was asked and doubts were cleared by the students and the professors who were there with us. And the whole session ended on a good note with a feedback session and a vote of thanks. NIMIT team then left the company at around 11:45am and left for college and wrapped up our industrial visit of the day.
