REPORT

Be-Hub is the prestigious initiative of the Training Department. This program aims at bringing a positive behavioral change in each student through the concept of associative learning. Recognizing the fact that the simple but healthy actions of a student, repeated on a daily basis becomes his habit within a month and gradually will become part of his character, the training department introduces a Healthy Habit every month. With this habit a positive vibe challenge is also introduced, so that the entire batch can perform as a team and the best performing batches are identified. Selection criteria were clearly mentioned based on the challenges of the month. In the 'Greet with Smile' habit the students from various departments who constantly wish their teachers and fellow mates with a pleasant and pleasing smile were identified. The next habit 'Think English Speak English' was introduced to motivate the Nimitians to develop the habit of communicating in English which was very much necessary today. The students got a chance to vote for their teachers who always follow the habit of speaking English inside the campus. 'Share and Care' was the habit to mould the commitment towards the society. It was the theme related to Christmas Season too. All the winners of these habits were appreciated with attractive prizes.

The habit of the month followed were:

- Greet with Smile
- Think English Speak English
- Share and Care
