The Nibodhi Library which is housed in the main building serves as the main resource center for all academic activities of the NIMIT. The library accommodates 60 students at the reading area at a time. Reference section, new arrival displays, reprographic service etc. are also provided. Open access system is followed for easy access to the collection while maximizing the usage of the print resources. The library has a wide range of collection of books on all the subjects of study. Currently the library holds a total of 14080 copies of print books. Library follows DD Classification for filing and AACR2 standards for cataloguing. Online resources include EBooks, from Pearson. Rare books ejournals, and other eresources are provided through subscription to DELNET and JGate. Library provides plagiarism checking service through Plagiarism X-Checker. It also maintains separate collections for journals, CDs, newspapers, general magazines etc.

The Library was automated with KOHA software version 3.20.10 in 2016. All books are barcoded and configured in Koha system to facilitate easy circulation and find location of copies. Patrons' ID cards are scanned at the entrance to store the usage data. Library OPAC is provided 24/7 on college website. The digital Library functions on the DSpace platform which was launched in 2019.
