## REPORT

The Entrepreneurship Development Club (ED Club) is a platform for the students to showcase, develop and train themselves in line with entrepreneurship traits and qualities. The club offers free membership to all the students under the PG Department of commerce. Any other students in NIMIT who wish to associate with the club are free to join the club with the permission of the HOD. The club hosted Friday markets throughout the year and motivated students to earn while they learned. The major events that were organized under ED club were the exhibitions, Onam and Christmas fests, exhibitions and workshops, industrial visits, industry interactions and the like. The students came into direct contact with many entrepreneurs with the help of the club and students opined that the club had contributed to the upskilling of their entrepreneurial skills. The ED Club is planning to incorporate selected number of students from all departments as regular members in the coming years. The minutes of meetings conducted by the ED Club is attached.
