## REPORT

As part of Naipunnya Excellence Award, Department of Computer Science, NIMIT launched “Tech-Explorica”, to develop cost-effective, practical and innovative concepts, programs, initiatives or designs that address everyday problems. “Tech-Explorica” is organized to reach out, identify and support innovative and creative solutions developed by students. This year, the “Tech-Explorica” focuses on generating technical and commercially viable solutions from students that can become spin-off start-ups or companies. The overarching aim of “Tech-Explorica” is to provide the opportunity for senior secondary students to unearth their technical abilities by generating relevant and viable ideas through their scientific research endeavors. It is expected that the innovative idea competition will foster skill development in technical ideation, design thinking and encourage problem solving skills within the student community as it offers young students a platform to share their innovative and creative technical ideas originating from scientific research.

“Tech-Explorica” is open to submissions with innovative ideas and solutions from senior secondary students with science backgrounds. It is important that the solution or idea emanates from self-developed innovation and creativity. The submitted ideas should thus offer sustainable solutions to real-work challenges which satisfies a market need. Tech-Explorica is organized to reach out, identify and support innovative and creative solutions developed by students. Interested students from senior secondary institutions participated in the competition. The program was held on 24th January 2023 at Chetana Conference Hall. The presentation starts from 10:30 onwards. Mr. Amal Antony and Mr. Fredy Varghese were the evaluators of the presentation. There were seven team members participating in the competition. There are mainly four stages for the competition. In the First stage students Registered and submitted ideas. After that the idea was evaluated and presented using PPT/Model/Demo to select the winner. And the last stage includes the presentation of ideas and interactive sessions. The maximum time allowed for presentation is 10 minutes and Question & Answer session is 10 minutes. The medium of presentation was English. The winners of the Tech-Explorica 2023 was Sabio Paulson and Megha Maria of Crescent Public School Chalakudy secured the first position and C Sidharth and Agna Saji of St Joseph Girls HSS Karukutty secured the second position and Aneena Raju and Ann Mariya of St Joseph HSS Meloor secured the third position.
