Date of event: 09.06.2023

Class: Students from all the batches of Hotel Management, Commerce & Computer science

Faculty In-charge: Mr. Sebin Varghese

REPORT

Report on World Food Safety Seminar

Food safety is essential in protecting individuals from bacteria and parasites that can be passed through food consumption. By practicing safe food handling, illnesses and fatalities can be prevented. The objective of this workshop is to provide students with the knowledge and skills of food safety and food hygiene necessary to work within a catering establishment and to ensure that the premises complies with food safety regulations in the country where the business is situated.

LEARNING OBJECTIVES

Upon completion of this workshop, students will have a basic:

- Knowledge of food safety and food hygiene requirements.
- Understanding of the importance of personal hygiene in the workplace.
- Understanding of microbiological, chemical, physical and allergen contamination.
- Interpretative skills to understand cleaning and how to clean effectively.
- Knowledge of the risks associated with Covid-19 and how to minimize these.

LEARNING OUTCOMES

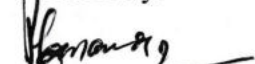

On successful completion, the learner will understand:

- How individuals can take personal responsibility for food safety
- The importance of keeping food safe.
- The importance of food safety and the impact of food borne illness
- How food becomes contaminated
- How to control contamination using best storage practices and safe temperatures
- How to prevent contamination by keeping him/herself clean and hygienic
- How to prevent contamination by keeping work areas clean and hygienic
- Understand the importance of maintaining a written food safety management system to control food safety hazards.
