Mr. John Kizhakuden

INTERNSHIP REPORT

Hotel Management programme is a course that is fully based on practical knowledge, so internship is the integral part of their study. Students usually undergo an internship program to prepare themselves for the real world. Through this program, they are able to gain work experience for a specified requirement. This is especially common for hotel management students. Internship is an opportunity to integrate career related experience into an undergraduate education by participating in planned supervised work. Internship is a work experience in which students set clear learning objective's that connect course content to the real world employment.

The objectives of a student participating in an internships are:

- Explore career alternatives prior to graduation.
- Integrate theory and practice.
- Assess interests and abilities in their field of study.
- Learn to appreciate work and its function in the economy.
- Develop work habits and attitudes necessary for job success.
- Develop communication, interpersonal and other critical skills in the job interview process.
- Build a record of work experience.
- Acquire employment contacts leading directly to a full-time job following graduation from college.
- Identify, write down, and carry out performance objectives (mutually agreed upon by the employer, the MCC experiential learning supervisor, and the student) related to their job assignment.

Industry experience is often an important part of applying for full-time positions. Employers often prefer applicants who have some experience working in positions that may be similar to the one they're offering. If you're new to a particular industry or are

still in school, an internship may promote professional growth and help you determine whether the career path you're pursuing is the right fit for you.

The final year students, as a part of the curriculum of the syllabus under University of Calicut have undergone a five-month Industrial Exposure Training (I.E.T.) in hotels of international chain and global repute.

Internship was carried out in 5- Star rated branded hotels like Hilton, Sheraton, Leela hotels, Crown plaza, Holiday inn, Grand Hyatt, and JW Marriott's, Oberoi, Taj, etc. The Industrial Training is an integral part of the 5th semester curriculum. The 20 weeks/ 5 months industrial training would be divided into four weeks each in the four key areas of Food Production, Food & Beverage Service, and Accommodation Operations & Front Office Operations. 2. Attendance during the training would be calculated separately. Industrial Training will require an input of 120 working days i.e. (20 weeks' x 06 days = 120 days). A student can avail leave to a maximum of 10% (12 days) only with prior permission of the hotel authorities. Similarly, the institute Principal can condone an additional 10% (12 days) on production of a medical certificate. Internal marks for IET and report, will be based on the feed-back from the industry in a prescribed Performance Appraisal Form (PAF). It will be the students' responsibility to get this feed-back/assessment form completed from all the four departments of the hotel for submission to the institute at the end of Industrial Training. All the students successfully completed their I.E.T. and reported back to the college.
