Circular

Be-Hub aims to bring about a positive behavioral change in each student through the concept of associative learning. Every month, the Training Department will introduce a healthy habit on campus. The habit of the month of September will be "On Time Every Time". The positive vibe challenge introduced with the habit will be recognizing students who consistently display punctuality, not only in their attendance at college but also in their completion of assignments and home work.

REPORT

Be-Hub's objective is to instill positive behavioral changes in students by utilizing the principles of associative learning. It acknowledges that by encouraging students to adopt simple yet healthy actions on a daily basis, these actions can evolve into habits within a month and eventually become integral to their character. Each month, a new healthy habit is introduced on campus, and students who consistently practice these habits are identified from every department. These exemplary students are rewarded on a monthly basis as the top performers, with selection criteria clearly outlined based on the habit of the month.

Habit of the month of September was "On Time Every Time". The positive vibe challenge introduced with this habit is to identify the students who are punctual and consistently complete assignments and work on time. This initiative was welcomed wholeheartedly and showed a positive impact on the lives of many. The best performers from each department are:
