**Circular**

The Training Department, as part of the Be-Hub programme, is planning to introduce a healthy habit on campus each month. Be-Hub aims to bring about a positive behavioral change in each student through the concept of associative learning. The habit of the month of August will be "Spread Happiness". The positive vibe challenge introduced with the habit will help in identifying the students who spread happiness in the class and on campus.

## REPORT

Be-Hub's objective is to instill positive behavioral changes in students by utilizing the principles of associative learning. It acknowledges that by encouraging students to adopt simple yet healthy actions on a daily basis, these actions can evolve into habits within a month and eventually become integral to their character. Each month, a new healthy habit is introduced on campus, and students who consistently practice these habits are identified from every department. These exemplary students are rewarded on a monthly basis as the best performers, with selection criteria clearly outlined based on the habit of the month.

The habit of the month of August was "Spread Happiness". As part of this initiative, a positive challenge was introduced, encouraging the identification of students who actively contributed to promoting happiness within their classrooms and across the campus. This endeavor was met with enthusiastic acceptance and had a demonstrably positive influence on the well-being of numerous individuals. The best performers from each department are:
