1. Write a review of your favourite film. (5 marks)

Rekha

On going through social I heard about the best actress award goes to the actress acted in the film Rekha. I searched in and watched the movie. And got to write about that film. The film started with the scene of a girl who is sleeping and being get waked up by her mother. With a starting romance mixed with comedy. The actress in her absend mind loses her chain in the nearby well while talking in her mobilephone. The film scenes showed the starting of a relations which begins in a happy and peaceful, do also shows the changes and loss of her best dog and her father whom were killed by her lover. Even though the film started with a comedy later on brings out the scenes of fear, sadness, depression and Angry which gives us mixed types of emotions.

Overall the film makes us understand about the courage of a girl who also was worried and feared about her relationship. Never getting stayed on her worrying mind she later found her courage to face and fight for her lost. The movie ends with a scene of police officers questioning her where she stayed bravely and answered. And she was not regreted about what she did for her lost one. The movie gives us three types of morals where from her, who collected all her courage and fitted & got freedom and the boyfriend, gets for what he did in the past. concludes with a message If you know it, fight for it.
