## REPORT

Be-Hub's objective is to instill positive behavioral changes in students by utilizing the principles of associative learning. It acknowledges that by encouraging students to adopt simple yet healthy actions on a daily basis, these actions can evolve into habits within a month and eventually become integral to their character. Each month, a new healthy habit is introduced on campus, and students who consistently practice these habits are identified from every department. These exemplary students are rewarded on a monthly basis as the top performers, with selection criteria clearly outlined based on the habit of the month.

The habit of the month of December was "Gift a Life". In the true spirit of the season, we believe there is no greater joy than bestowing the gift of life on someone else. LHP members gave awareness among the classes to join in the meaningful act of gifting a life. Embracing the profound act of giving the gift of life through organ donation holds the transformative power to breathe vitality into the lives of others. Through the selfless act of organ donation, we have the ability to extend the lifeline of another, offering them the chance to experience the beauty of existence and creating a ripple effect of positivity that reverberates throughout the human experience. This initiative was welcomed wholeheartedly and showed a positive impact on the lives of many.
