REPORT ON TALLY WITH GST

In the academic year 2023-2024, Tally with GST add on course was started on 22.06.2023. As per the course, 54 students were registered and attended the online and offline classes. The Naipunnnya Institute of Management and Information Technology, NIMIT Pongam collaborated with Tax Study Vocational Training Centre(VTC)-Ernakulam, to conduct add on course. Under this, we covered the topics, Introduction to Tally ERP 9 With GST, Introduction to Goods & Services Tax, GST Accounting on various areas and Budget & Control etc. Tally is a popular accounting software used by businesses to manage their financial transactions, inventory, and compliance reporting. With respect to GST (Goods and Services Tax), Tally can be used to:

1. **GST Compliance:** Tally can generate GST-compliant invoices, manage GST input tax credit, and prepare GST returns (GSTR-1, GSTR-3B, etc.) as per the regulations specified by the government.
2. **GST Calculation:** It automates the calculation of GST on sales and purchases based on the GST rates applicable to different goods and services.
3. **GST Reconciliation:** Tally helps in reconciling purchase and sales data with GST returns filed by suppliers and customers, ensuring accuracy and compliance.
4. **GST Reports:** It generates various GST-related reports such as tax liability, input tax credit utilization, and summary reports required for GST audits and filings.
5. **Integration:** Tally can integrate with GSTN (Goods and Services Tax Network) for seamless data exchange and compliance verification with the tax authorities.

Overall, Tally simplifies the process of managing GST-related transactions and compliance for businesses, helping them adhere to the GST laws effectively. The selected from BCOM/BBA were joined for the course of 6 months (32 hours) to get a practical knowledge on accounting standards. All the students were received the certificates after completing their exam on Tally with GST.
