REPORT

The Training Department has provided Skill Enrichment Program (SEP) and Language Lab Training for the first year students of 2023-2024 batches. College have a well-functioned language lab with computer-assisted multimedia facilities for students to practice English, while learning in new and effective ways. The objective of this training program is to provide language learners with a wide range of tools to excel in LSRW. Through these programs students also gets an opportunity to enhance their soft skills.

Language lab provides students an exciting way of learning English through its advanced features and functionalities. Tell Me More is a virtual language teacher software used in the Language Lab, which focuses on listening, speaking, reading and writing. The speech recognition technology recognizes what you say, assesses the pronunciation and correct the mistakes. The software has different levels like the beginner, intermediate and the advanced, by which students can evaluate and improve themselves.

Language lab orientation were conducted for all first year students. During the orientation session, students were familiarized with the software and its functions. The sessions are provided to the students based on a syllabus, primarily to enhance the listening, speaking, reading and writing skills. It also helps them to speak with confidence and clarity. In the second semester students were made familiarized with MS Office suite.
