ANWESHAN

Literature captures human experience in all its nuances and provides myriad perspectives of the world we inhabit in the form of stories, poems, plays and essays. The purpose of literature is to suffuse human intellect with truth and beauty. Art, an essential element of culture like Literature, reflects this truth and beauty. Great literary works have drawn inspiration from great works of art and vice versa. The PG Department of English is organising an Ekphrastic poetry competition to examine this relationship. In order to kindle the imagination, the department is also hosting an Imaginative Sequel competition where the participants will attempt to create a sequel to a well-known fairytale. Grab this opportunity and let your creativity soar.
