REPORT

The Industrial Visit to ICT Academy of Kerala, Koratty, was organized on 28th February 2025, providing students with an opportunity to gain practical exposure to the latest advancements in Information and Communication Technology (ICT). The visit aimed to bridge the gap between academic learning and industry requirements by offering insights into skill development, industry collaboration, and research opportunities. The ICT Academy, a government and industry-supported initiative, plays a crucial role in enhancing employability by offering specialized training programs in fields such as Full Stack Development, Java Programming, DevOps, and Data Science.

During the visit, students were introduced to the various courses and certifications offered by ICT Academy, with a focus on job-oriented learning. The sessions covered industry-relevant technologies such as MERN Stack (MongoDB, Express.js, React, Node.js) for web development, Azure DevOps for software automation, and AI-driven data science applications. Experts from the academy emphasized the importance of continuous learning, industry-academia collaboration, and research contributions through ICTACT Journals, which publish peer-reviewed research in fields like communication technology, soft computing, and management studies.

The interactive sessions allowed students to engage with industry professionals and gain valuable insights into career opportunities in IT, banking, engineering design, and entrepreneurship. The visit also highlighted the role of certifications and research publications in career growth. Through hands-on demonstrations, students learned about the latest trends in AI, cloud computing, and cybersecurity, further enhancing their technical knowledge.

Overall, the industrial visit to ICT Academy of Kerala was a highly enriching experience. It provided students with exposure to real-world ICT applications and emphasized the significance of skill development in today's competitive job market. The visit inspired students to explore professional certifications, research opportunities, and industry collaborations, reinforcing the need for continuous upskilling. We express our sincere gratitude to ICT Academy of Kerala for hosting this informative session and to the faculty and organizers for coordinating the visit successfully.

To whomsoever it may concern

We hereby certify that Students from Naipunnaya Institute of Management and Information Technology, Thrissur (Students from Final year BSC Computer Science) has been visited in our Learning centre at Infopark, Koratty on 24/02/2025.

The day featured a diverse program that included informative sessions, interactive games, creative performances, and networking opportunities, all centered around the theme of industry 4.0 and technology. It provided an engaging and well-rounded learning experience.

Let's hope they will apply this practical knowledge for their studies in future and wishing them for their future.
