REPORT

The students of the BSc IT program successfully initiated an outreach program by visiting "Buds Special School" for Mentally Disabled Children in Kariyad. The program was a success, as the students created a joyful and engaging environment for the children at the institution. As part of the Christmas season, the students brought cakes for the children and organized activities to promote the festive spirit. They interacted with the children by narrating stories from the Bible and participating in singing and dancing sessions. These activities fostered a sense of joy and connection, leaving both the students and the children with cherished memories.

The visit provided the students with a humbling experience, teaching them gratitude for the blessings in their own lives. The program concluded at 1:00 p.m., with heartfelt goodbyes and the hope of meeting again in the future. The students departed with a sense of fulfillment, believing their efforts had brightened the children's day. The team returned to the college as scheduled, marking the outreach program as a successful and impactful initiative. We left the institution with the assurance that we made their day better. We reached the college at the designated time, making our outreach program successful.
