REPORT

On 06th December, 2024, 44 students of 6th semester BCom F (A) along with the class in charge, Ms Kavitha Vincent started their Industrial Visit to Nita Gelatin. The industrial visit to Nitta Gelatin India Limited (NGIL) was an enriching experience, offering a detailed understanding of the company's operations, product range, and contributions to various industries. NGIL stands out as a leading manufacturer of Gelatin, widely used in pharmaceutical and food applications, ensuring compliance with global quality standards and fulfilling the needs of diverse consumers. The production of Di-Calcium Phosphate, an essential poultry feed ingredient, highlights NGIL's commitment to supporting the agriculture and livestock sectors by promoting animal health and nutrition. The company's expertise further extends to the production of Ossein, a primary raw material for Gelatin, and Chitosan, which finds applications in agriculture for enhancing soil quality and in industrial processes for water treatment and waste management. The visit offered an in-depth look at NGIL's state-of-the-art manufacturing facilities, stringent quality control measures, and sustainable practices aimed at minimizing environmental impact. Overall, the visit showcased NGIL's dedication to innovation, quality, and its significant contributions to multiple industries.
