REPORT

The Bhoomithrasena Club, in collaboration with the NSS unit, marked the World Environment Day on 5th June, 2024. A tree plantation and cleaning drive aimed at enhancing green spaces and promoting cleanliness around the college was conducted. The initiative focused on areas such as the college entrance, nearby bus stops, and the National Highway. The event began with a formal meeting and sapling planting ceremony at 9:30 a.m. behind the Priests' Home, inaugurated by Mr. Varghese Payyappilly, Ward Member of the Koratty Panchayat. The NSS Volunteers and Bhoomithrasena Club members actively participated, demonstrating their commitment to a greener future. This was followed by a cleaning drive from 10:30 a.m. to 12:30 p.m., during which students, organized into ten groups of five each with designated leaders, cleaned the surroundings of the two bus stops and the highway median. The coordinators of both organizations supervised the event to ensure its smooth and safe execution. The combined efforts of the volunteers not only contributed to environmental improvement but also helped spread eco-consciousness among students and the local community.

The second event was a photography competition entitled "Candid Canvas" in remembrance of Rev. Fr. Jose Karachira, former campus minister of NIMIT, who was a passionate admirer of birds and their beauty. Themed 'Inhabitant Birds on the Campus,' this event aimed to capture the essence of campus-dwelling birds through the creative lenses of students. The competition saw enthusiastic participation. In addition to the competition, a documentary featuring selected photographs from the contest entries was compiled. The screening of the documentary occurred on January 29, 2025, during "Crescendo: A Triumphant Journey Toward Excellence," a grand event celebrating the institution's significant achievements.

The third event was the sale of organic vegetables, which is harvested from the campus with the involvement of students. The "Farm Fresh" initiative is an ongoing program that promotes sustainable agriculture by cultivating organic vegetables on campus, with active involvement from students. The vegetables are harvested by the students and the produce is sold on campus every Monday and Thursday, and the vegetables are also provided to the hostel kitchen. This initiative not only provides fresh and nutritious organic vegetables to the campus community but also fosters environmental awareness and hands-on learning for the students involved in the farming process. Through this initiative the club has cultivated vegetables like lady finger, tomato, chilli, brinjal, ridge gourd, bottle gourd, yam, tapioca, spinach, raw banana, and banana flower, cauliflower, mango, ginger, Chinese potato, drumstick, powdered turmeric, peppercorn and ash gourd. These crops are grown using organic farming techniques, which avoid the use of harmful pesticides and synthetic fertilizers. This ensures the vegetables are safe for consumption and contribute positively to the environment.
