REPORT

Naipunnya Institute of Management and Information Technology organized a placement drive, entitled Takshak'25 on the 24th April, 2025. The programme started at 9:30 a.m. and concluded at 3:00 p.m. A number of companies showed up for the drive and the students from NIMIT as well as other colleges and candidates who wanted to secure a job took part in the placement drive. In addition, some companies allowed students a flexible entry into the corporate world. The companies conducted various rounds of selection including aptitude tests, group discussions, technical interviews, and HR interviews to identify the best candidates. The response from students was overwhelming, with over 100 candidates registering for the drive. The Placement Cell ensured all necessary arrangements, including interview panels, group discussion rooms, and waiting areas, were well-managed and professionally executed. The Special pre-placement training sessions were also conducted in the months leading up to the drive, helping students to enhance their resume-writing, communication, and interview skills. This preparation significantly boosted the confidence of students and contributed to the high success rate observed during the event. By the end of the drive, students received job offers, with several students securing multiple offers. The placement drive was a resounding success and underscored the college's commitment to student development and industry collaboration. It not only provided students with employment but also gave them valuable insights into the expectations of the professional world.
